JAS Korea Overview

Established in April 1987, JAS Korea is among the leading forwarders in Korea providing services to all aspects of the Korea's Import & Export market with support of JAS Worldwide Group.

JAS Korea authenticated **ISO 9001:2000** certification, confirming its efficiency, which is reached through an exchange between its various branches around the world and by the competence and dedication of its team, made up of specialized and well trained professionals.

JAS Korea's success has been and will continue to be built on our commitment to excellence on customer service. This commitment has been inspired by the belief that our client's success is our success.

JAS Korea Overview

In December 2006, we were successful in obtaining our IATA License (Int'l Air Transport Association). This enabled us to deal directly with all major airlines without an intermediary which offered us for comprehensive international air freight service.

Provide the highest quality freight forwarding services to our customers, by being proactive and continually improving our level of service

Offers a comprehensive international air freight service to our client

I.T. for Customer Service

Purchase Order Management System

The screenshot displays the JAS Purchase Order Management System interface. It features a top navigation bar with menu items like 'BILL', 'ORDER', 'TRACKING', 'INVOICE', 'REPORT', 'HELP', and 'LOGOUT'. The main content area is titled 'Shipping Status by Purchase Order' and includes a search filter for 'Order No.' with the value '431'. Below this is a table with columns: Ref No., Order Date, Supplier, Order Amt., CUR, (%), Price Term, Shpg Mode, S/D, OF, and Remarks. A yellow arrow points from the 'Shipping Status by Purchase Order' table to a larger, more detailed table below it, which is captioned 'Cargo Status by Purchase Order and Detailed Item'. This detailed table has columns for Ref No., Order Date, Supplier, Order Amt., CUR, (%), Price Term, Shpg Mode, S/D, OF, and Remarks. A second yellow arrow points from the detailed table to a third table at the bottom, captioned 'Data Management by Customer', which shows a list of orders with columns for Ref No., Order Date, Supplier, Order Amt., CUR, (%), Price Term, Shpg Mode, S/D, OF, and Remarks.

- We have extended the cargo tracing service range through WEB into the point of Purchase Order while conventional tracing is only available after the H/B issued.
- This service is proved by our customers as the most efficient way of communication between importer and forwarder to save costs and time.
- We are implementing sales activity to introduce this service to more customers, and utilize it as a sales tool.
